Awards

adidas Golden Scorer

The Golden Scorer is awarded to the player who scores the most goals in the final competition. If two or more players score the same number of goals, the number of assists (as determined by members of the FIFA Technical Study Group) will be decisive. If two or more players are still equal after taking into account the number of assists, the total number of matches played in the final competition will be taken into account, with the player playing fewer matches ranked first. A Silver Scorer and a Bronze Scorer for the second and third highest goalscorers is also awarded.
